

**“ Using Ziggy,
we immediately felt
more connected ”**

Equality

Ziggy makes it possible to walk side-by-side, as equals.

Communication

“You instantly see how they experience something and can respond straight away”.

Relaxation

Contact and connection makes outings relaxing for both parties.

How does the accessory work?

Adapts to the wheelchair

Ziggy consists of a wheelchair adapter and a universal pushing unit. Go to <https://www.ziggy-mobility.nl/product> to see the range of compatible wheelchairs.

Easy to push

Ziggy has minimal influence on pushing force; it's just like pushing from behind.

Quick to fold away

Ziggy can be folded away quickly and easily for those narrow doorways or park obstacles!
